Lunafest @ UCSD | Sponsored by Council of CSAs
Wednesday, March 7th | 7:00 pm | PC Theater
The Colleges present the 17th Annual Lunafest. Short films by, for and about women.

The month of March was designated Women’s History month by Congress in 1987, though recognition of the month can be traced back as early as 1911. Historically, and still today, the rich stories of women’s leadership, creativity, activism and contributions have been systematically absent from the public consciousness. Today, Women’s Herstory Month at UC San Diego continues as a reminder that we must intentionally make space for the stories that have been removed, ignored, or silenced from history. We also must actively acknowledge that the same systems that have diminished the accomplishments of women throughout history have diminished the stories of all communities who experience gender marginalization.

This month and beyond we seek to center those stories and experiences that have gone untold and unacknowledged.
